

YEAR 5 CLASS CAS PROJECT: COLLABORATION WITH DEMENTIA SINGAPORE

Project Illuminare was a student initiative of a group of students from 5.19. From January to August 2024, we partnered with Dementia Singapore, an organisation committed to enhancing the quality of life for individuals with dementia and creating a society that is inclusive of people living with the condition.

To support Dementia Singapore's goal of a dementia-inclusive society, *Project Illuminare* focused on enhancing their Arts for Dementia programme. Our partnership aimed to implement activities that stimulated long-term memory, like scrapbooking, and engaged the senses of dementia patients through sensory experiences.

Working with Dementia Singapore was a truly eye-opening experience. We gained valuable insights into diverse perspectives, broadening our worldview, and acquired firsthand experience in working with dementia patients. This journey brought us closer to our goal of raising awareness among our peers.
