Not restricted or limited to a single genre, Dance Venia trains in various forms of dance, including but not limited to pop, hip-hop, locking, salsa, ballet, modern, street jazz, and contemporary. We see dance and life as two sides of a Möbius strip, no beginning and no end, a continuous continuum of all that is life and a life that is all.

As always, we aspire and dream to live up to our name of “dancing in God’s grace”, striving and improving even more to bring further glory to the school.

*“Child of the pure, unclouded brow  
And dreaming eyes of wonder!...  
Thy loving smile will surely hail  
The love-gift of a fairy tale.”*

*- Lewis Carroll*
