

## SFS Infosheet

### About Student Finance System (SFS)

Parents/Guardians can access MOE's student finance services portal called **Student Finance System (SFS)** using Singpass to access their child's/ward's Edusave account.

With SFS, parents/guardians can enjoy the ease and convenience of accessing the latest information and real-time transactions online including:

- **View the latest Edusave account balances and transaction history**
  - Since the latest balances are now available via SFS, checking of Edusave balances via MOE's 24-hour automated hotline is no longer available.
- **View and download the Edusave Annual Statement of Accounts (SOA)**
  - Since the SOA is now available in SFS, the hard copy will no longer be sent via post to parents/guardians from 2027 onwards.
- **Set up an Edusave Standing Order (SO) to pay for approved fees/enrichment programme fees using Edusave funds:**
  - With effect from 27 July 2026, parents/guardians will need to set up an Edusave SO in SFS to authorise Edusave withdrawals for students in Independent Schools, Specialised Schools and Specialised Independent Schools.
  - Parents/Guardians can set up the Edusave SO online in SFS using their Singpass.
  - Once the Edusave SO is set up, it will take immediate effect.
  - The Edusave SO will remain in force unless it is terminated by parents/guardians. Alternatively, an expiry date can be indicated during Edusave SO setup.
  - Parents/Guardians can also edit the Edusave SO at any point in time. Changes made will take immediate effect.
  - Each Edusave SO is specific to the school their child/ward is in. Should their child/ward change to another school in future, parents/guardians will need to set up a new Edusave SO for the new school.
  - Schools will continue to inform and seek consent from parents/guardians for the student's participation in enrichment programmes before the withdrawal of Edusave funds. Thereafter, the required funds will be deducted from the student's Edusave account.
